

The Society of Construction Law Australia presents:

# AS11000: Where to Now?

Mark Griffith, Latitude Consulting, will explore the constructive outcomes of the work on AS11000.

Mark has over 30 years' experience in senior management and project management roles within the construction and engineering sector, and is recognised as a leading delay expert. He is a highly sought after presenter at key legal and construction conferences presenting practical advice about issues relating to project management.

This presentation will explore the constructive outcomes of the work on AS1100, in particular, whether elements of AS11000 can be adopted to assist in addressing the deficiencies of AS 2124-1992 and AS 4000-1997 in regards to the extension of time claims.

**Wednesday, 20<sup>th</sup> September**
