# About FTI Consulting

FTI Consulting helps companies navigate through each stage of the dispute resolution process. We offer independent advice and expert testimony needed for successful outcomes. Our international arbitration experts have years of industry experience in damage quantification and in treaty and commercial arbitrations. We provide end-to-end valuation and litigation support, including: determining if a claim is worth pursuing; identifying the correct approaches or methodologies for quantifying damages; evaluating claims in the context of past and future economic damages incurred; and pinpointing the exact type of expertise, evidence and documentation required.

For nine consecutive years, Who's Who Legal's Arbitration Expert Witness Analysis has recognised FTI Consulting as a leader in international arbitration. We have 53\* experts on this list, covering Europe,

North America, South America and the Asia Pacific region. We have been recognised as the leading firm by Who's Who Legal each year since this survey was started in 2011, and have more than four times the number of experts than any other firm listed. FTI Consulting's recognition also includes eleven professionals named as Thought Leaders in the 2019 survey of arbitrators, counsel and expert witnesses. Because we have by far the largest group of testifying damages experts, we can identify the right expert for the case in hand.

Hear from some of these experts in this Q&A Panel discussion as we unpack the complexities of the impact of COVID-19 on damages claims.

\* including 20 experts from Compass Lexecon, a wholly owned subsidiary of FTI Consulting Inc.
