Current Tricks of the Trade in Variations

What works and what doesn't?

Join the Australian Cost Engineering Society to learn more about tools available in variations.

6.30pm, Tuesday 16 July 2019

Engineers Australia
Level 31, 600 Bourke Street, Melbourne

Which tools do contractors need to identify, value and obtain entitlement for variations, and what should, or can, owners do to avoid claims? Featuring three speakers to represent the viewpoints of owners, contractors, and the legal fraternity, this event will allow guests to hear from industry experts on what works and what doesn't, followed by a Q&A session.

Meet the Speakers:

Belinda Nisbet:

Belinda is a Mechanical Engineer and legal advisor on major infrastructure projects, including in relation to alliance, D&C and PPP contracts, along with the range of legal issues that arise during construction including the handling of variations.

Danny Benjamin:

Danny is a Civil Engineer and currently the Director, Commercial at Major Road Projects Victoria overseeing a portfolio of more than 30 active capital projects worth in the order \$10B. He brings a unique blend of private and public sector experience and a demonstrated track-record of strategy, development and delivery.

Phil Hall:

Phil is a Civil Engineer with over 40 years of experience in the field of contract administration and Management in the construction industry. Phil provides support, direction and a hands-on approach to various Contract types - pre and post-award.
