### **Andrew Chew**

As a partner at Corrs Chambers Westgarth, Andrew leads the firm's infrastructure practice. Andrew is a Chartered Professional Engineer and is recognised as a leading lawyer in Chambers Asia Pacific Guide, Best Lawyers Peer Review and International Who's Who Legal.

### **Ashley Brinson**

Ashley leads Brinson and Associates, a consultancy that supports technology-oriented businesses to set strategies, scale up innovation, and manage IP. He also leads Solarobotix, a construction tech start-up providing automation for the solar energy industry.

### **Professor Dagmar Reinhardt**

Associate Professor and Robotics Research Leader, Faculty of Architecture, University of Sydney. Prof Reinhardt utilises industrial robots and advanced technologies in design and construction for the built environment.

### **Murray Ellen**

Founder of PT Blink Ltd. Murray has delivered a number of high-profile projects based on engineered post tensioned ("PT") structural components. PT Blink leverages that experience with a suite of 3D design tools, a Design-Manufacture-Integrate approach to modularised components and a unique digital marketplace.

### **Yin Man**

Digital Director, Office of the Building Commissioner

Yin has over 20 years' experience in driving digital transformation across financial, cultural and Government sectors. She is passionate about enabling real-time data and analytics to augment business capabilities and efficiency levels. Her previous experience includes leading the Health eNet Program for eHealth to enable information sharing across hospitals, community health services and the national health record, My Health Record. Before joining the Office of the Building Commissioner, she led the replacement of NSW's legacy child protection system and co-authored the new NSW Digital Strategy.
